Re: Endorsement of the video course **Interacting with Law Enforcement:
Motor Vehicle Stops** produced by OPTU

Dear Mr. Kirtsos,

Since 1991, the NJ State Troopers Superior Officers' Association is proud to support the protection, general welfare, and advancement of our members. To that end, we endorse the video course **Interacting with Law Enforcement: Motor Vehicle Stops** produced by OPTU.

With the health and safety of our members being our only priority, a program that reduces tension during traffic stops is a solid addition to the education of every driver in NJ, especially new ones.

It is our expectation that an increase in calm, respectful traffic stops will go a long way to strengthening relations between our members and our communities on all levels.

Frank Serratore
